This is a working draft plan which has been produced for the purpose of phase two consultation on the Thames Tunnel project.

The information shown on the plan is illustrative of what will be required for the purpose of constructing and operating the proposed main tunnel. It may be necessary to make amendments to the proposed alignment and other details to take account of responses to the consultation and any other changes to site conditions.

Legend
- Pumping station directly controlled
- Pumping station indirectly controlled
- Pumping station controlled by Lee Tunnel
- CSO directly controlled
- CSO indirectly controlled
- CSO controlled by Lee Tunnel
- CSO controlled other projects

This plan is based on the data held by Ordnance Survey and is not intended to be an exact representation of the current situation. It is intended to illustrate the proposed alignment of the main tunnel, Lee Tunnel, other works and the areas of potential impact. It does not show any existing or proposed structures or features of a similar nature.
